1. Introduction to PCSync 4.0

1.1 What is PCSync?

PCSync creates a connection between your PC and mobile terminal and lets you manage your mobile terminal's data including phone numbers.

1.2 Minimum operating requirements

CPU: Pentium II 300 (x86 compatible processor)

RAM: 64 MB or higher (128 MB recommended)

VGA: 800 x 600 (16 bit color or higher)

HDD: 20 MB free space

OS: Microsoft Windows, 98SE, 2000 or XP

CD-ROM: CD-ROM/DVD-ROM (4x or higher)

Mouse: Serial mouse/PS/2 Mice/USB mouse

1.3 Installation Media

The Installation Package File (exe or zip format) is located on the Accessory CD supplied with your phone. Alternatively, it can be downloaded from the internet. For more information, visit the provider website (<http://www.wndtelecom.com>).

2. Installation

2.1 PCSync Setup

Open and run the Installation Package from the CD or via internet download. The Installation Package file name is WND_DU02000_PCSync_Setup4.0.exe

2.2 License Agreement

Please read the license agreement carefully, and if you agree with the terms, click to Accept and click Next to continue. If you do not agree with the terms of the license agreement, click Cancel.

2.3 Choose Customer Information

Please enter your name and the name of the company you work for.

< Back Next > Cancel

2.4 Ready to Install the Program

If you want to review or change any of your installation settings, click Back. Click Cancel to exit the wizard.

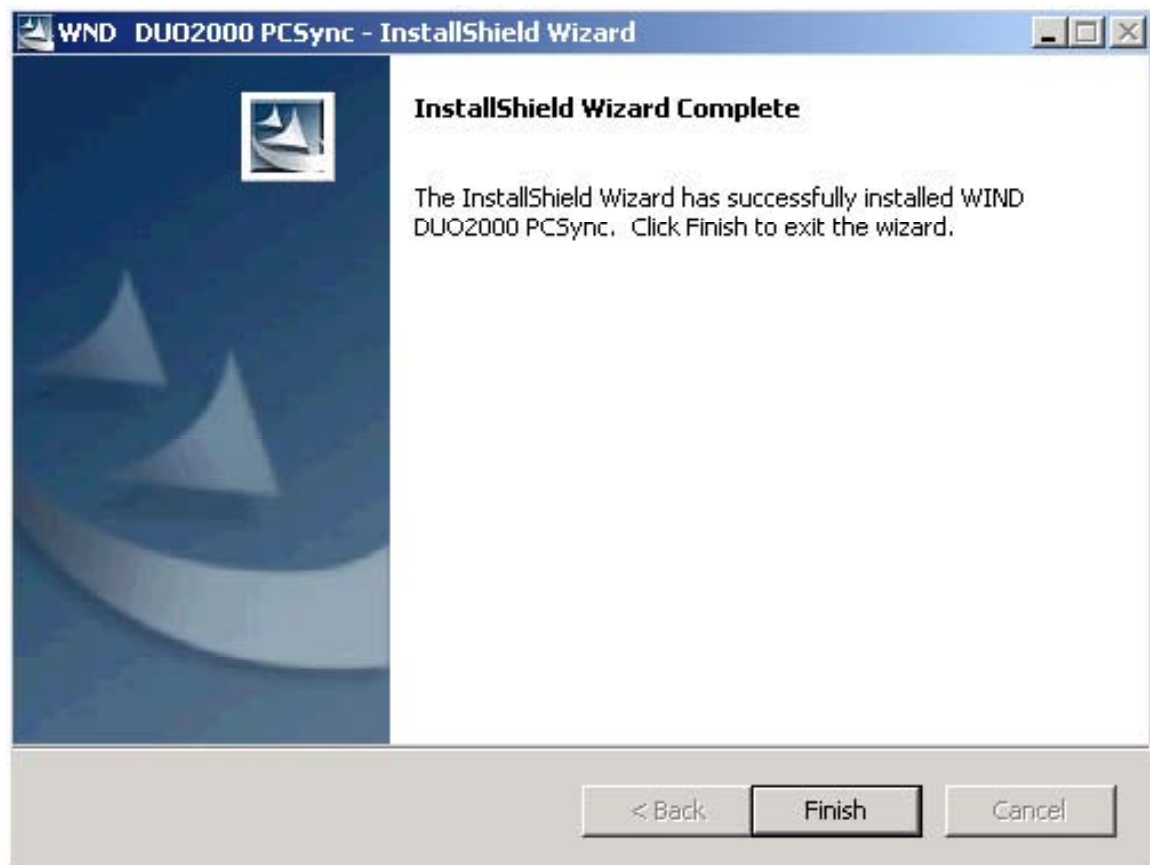

2.5 Setup Status

PC Sync is configuring your new software installation.

2.6 Install Complete

The InstallShield Wizard has successfully installed PC Sync. Click “Finish” to exit the wizard.

3. Uninstall

3.1 How to uninstall PC Sync

To uninstall PC Sync, go to Control Panel, click on Add or Remove Programs and select WND DUO2000 PCSync from the list.

3.2 Select Remove

After selecting the Remove option, the Uninstall Wizard will let you uninstall the installation. Click the Next button to display Confirm Uninstallation.

3.3 Uninstallation in progress

When uninstallation is in progress, the installed file, folder and registration information are in the process of being deleted.

3.4 Uninstall complete

InstallShield Wizard has finished uninstalling PC Sync.
